MAS115/125 Calculus I/II 2006-2007

Use of MyMathLab

General

This module relies on MyMathlab for Practice Exercises and Coursework in connection with *Thomas' Calculus, 11th international Edition*. MyMathLab can be accessed at `http://www.coursecompass.com`. In addition to the assigned work, it contains a wealth of supplementary material for

- practice: there are lots and lots of exercises available for study

- in depth study: the textbook is supplemented by multimedia (videos, applets, ...)

- revision: chapter summary and flashcards, to name but a few examples

- extended reading: if you don't feel stretched enough, do your own exploration

In fact, there is so much material that it may seem overwhelming. If this is your first time on a computer, use it sparingly.

Registration

- Please register with your KEY for the course with course id **prellberg75009**. This registration will be valid for both Calculus I and Calculus II.

> **Important: Use your student identification number as your userid.**
> **When registering, enter your name precisely as it is listed on your student id card.**

Use of Computer Labs

- Computer lab information is available at `http://qm-web.css.qmul.ac.uk/services.shtml`, and locations can be found at `http://qm-web.css.qmul.ac.uk/frontoffice/Liaison/lablocnew.shtml`

- In addition, computers are available in the library and in the catering building.

- Internet Explorer is necessary for MyMathLab. Other Web browsers will not work.

> **Important: When logging in, make sure to start Internet Explorer using the `testgen` menu item in the menu for Mathematics. Then go to `http://www.coursecompass.com`.**

Access from Elsewhere

- If you have your own Windows machine (no other operating system will work, as you will need Internet Explorer), you can connect to `http://www.coursecompass.com` from wherever you would like. (However, a broadband connection is advised if you want to watch the videos.)

- You will have to install software on your machine. For this, browse through the online help.

- There is free technical support available (well, you have to call the US):
  Call 001-800-677-6337. Staff is available to troubleshoot your technical issue during the following hours:
  Monday through Friday, from 8 AM to 8 PM Eastern time (US and Canada), and Sunday, from 5 PM to 12 AM
